Dear Sir/Madam,

**EU REGULATION 882/2004 ON OFFICIAL CONTROLS – COMMISSION REGULATION ON IMPLEMENTING RULES FOR IMPORT CONTROLS FOR 'HIGH RISK' FEED AND FOOD OF NON-ANIMAL ORIGIN (NON-POAO)**

1. The European Commission has just issued a further draft of the above Regulation and is proposing to present this for vote at the 12/13 February meeting of the Standing Committee on the Food Chain and Animal Health (SCoFCAH). I am writing to seek your views on the latest text.

2. To allow us time to consider any further comments that you may have before finalising the UK position for the SCoFCAH meeting, I must ask for responses as soon as possible and **by Friday 6 February 2009** at the latest. My contact details are given below.

**Latest Commission text**

3. A copy of the latest text - Rev 23 - is at Appendix 1. This follows the Commission's meeting with industry stakeholders on 2 December 2008 to discuss their views on the draft Regulation. Changes from Rev 21 (on which I sought your comments in my letter of 10 October 2008) are highlighted. The existing safeguard measures that will be repealed by the proposed Regulation are identified, and there have been some changes to the list of 'high-risk' products at Annex 1 (please note that the Commission has indicated that further changes to the list may be made before the Regulation enters into force).

**Next steps**

4. Our understanding is that subject to the outcome of the SCoFCAH meeting, the Regulation will be subject to a period of scrutiny by the European Parliament before it is adopted formally. Entry into force will be six months after adoption, and is likely to be during the second half of 2009.

**Further information**

5. If you wish to discuss any issues in relation to the draft Regulation, please get in touch with me or with David Millis on 020 7276 8424 (email: [david.millis@foodstandards.gsi.gov.uk](mailto:david.millis@foodstandards.gsi.gov.uk)).

Yours faithfully,

**implementing Regulation (EC) No 882/2004 of the European Parliament and of the Council as regards official controls on imports of certain feed and food of non-animal origin**

(Text with EEA relevance)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules<sup>1</sup>, and in particular Article 15(5) and Article 63(1) thereof,

Whereas:

- (1) Regulation (EC) No 882/2004 establishes a harmonised framework of general rules for the organisation of official controls at Community level. In accordance with Article 15(5) of that Regulation, feed and food of non-animal origin, for which a known or emerging risk is recognised, must be listed and subject to an increased level of official controls at the point of entry into the territories referred to in Annex I thereto. Such an increased level of control should allow, on the one hand, the known or emerging risk to be countered more effectively, and, on the other hand, the collection of accurate monitoring data on the occurrence and prevalence of unfavourable results from laboratory analysis.
- (2) Article 17(1) of Regulation (EC) No 882/2004 provides that Member States are to designate points of entry which have access to the appropriate control facilities for the different types of feed and food. Accordingly, it is appropriate to set out in the present Regulation minimum requirements for designated points of entry in order to ensure a degree of uniformity in the effectiveness of the controls.
- (3) In order to draw up the list of feed and food of non-animal origin that should be subject to the increased level of official controls, as provided for in Article 15(5) of Regulation (EC) No 882/2004, certain criteria, which would allow the identification of an existing or emerging risk linked to a specific feed or food of non-animal origin, should be taken into account.

(4) *Pending the adoption of a standardised methodology and criteria for the setting up of the list*, data resulting from notifications received through the rapid alert system for food and feed (RASFF), as established by Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety<sup>2</sup>, reports by the Food and Veterinary Office, reports received from third countries, exchanges of information between the Commission, Member States, and the European Food Safety Authority and scientific assessments, *should be considered for the purposes of drawing up and updating the list*.

(5) Article 17(1) of Regulation (EC) No 882/2004 provides that feed and food business operators, responsible for consignments, are to give prior notification of the arrival and nature of such consignments. Accordingly, a model form of common entry document should be laid down for imports of feed and food of non-animal origin covered by the present Regulation in order to ensure a uniform approach. It should be made available to the customs authorities when consignments are declared for the release for free circulation. In addition, in order to ensure a certain level of uniformity at Community level with regard to official controls, it is appropriate to lay down in this Regulation that those official controls should cover documentary, identity and physical checks.

(6) Adequate financial resources should be made available for organising the increased levels of official controls. Therefore, the Member States should be able to levy the fees or charges necessary to cover the costs involved. The calculation of those fees and charges should be in accordance with the criteria laid down in Annex VI to Regulation (EC) No 882/2004.

(7) The application of the minimum requirements for designated points of entry may present practical difficulties for the Member States. Therefore, provision should be made for a transitional period during which those requirements may be progressively implemented. Accordingly, the competent authorities in the Member States should be allowed, during that transitional period, to carry out the required identity and physical checks at control points other than the designated point of entry. In those cases, this control point should comply with the minimum requirements for designated points of entry set out in this Regulation.

(8) *Commission Decision 2005/402/EC of 23 May 2005 on emergency measures regarding chilli, chilli products, curcuma and palm oil<sup>3</sup> provides that all consignments of such products must be accompanied by an analytical report demonstrating that the product does not contain any of the following substances: Sudan I (CAS number 842-07-9), Sudan II (CAS number 3118-97-6), Sudan III (CAS number 85-86-9) or Sudan IV (85-83-6). Since the adoption of those measures, the frequency of the notifications to the RASFF has decreased, which indicates a significant improvement in the situation as regards the presence of Sudan dyes in relevant products. . It is therefore appropriate to discontinue the requirement to provide the analytical report for each consignment of imported products laid down in*

<sup>3</sup> [OJ L 135, 28.5.2005, p. 34](#)

Commission Decision 2005/402/EC and to establish instead a uniform, increased level of controls on those consignments at the point of entry into the Community. Commission Decision 2005/402/EC should therefore be repealed.

- (9) Commission Decision 2006/504/EC of 12 July 2006 on special conditions governing certain foodstuffs imported from certain third countries due to contamination risks of these products by aflatoxins<sup>4</sup>, provides for an increased frequency of controls (50% of all consignments) to be carried for the presence of aflatoxins in peanuts originating from Brazil. Since the adoption of those measures, the frequency of the notifications to the RASFF in relation to aflatoxins in peanuts from Brazil has decreased. It is therefore appropriate to discontinue the measures provided for in Commission Decision 2006/504 as regards such commodities, which should instead be subject to a uniform, increased level of controls at the point of entry into the Community. It is appropriate to amend Commission Decision 2006/504/EC accordingly.

- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

*Article 1*  
*Subject matter*

This Regulation lays down rules pursuant to Article 15(5) of Regulation (EC) No 882/2004 at the points of entry into the territories referred to Annex I thereto, on imports of the feed and food of non-animal origin listed in Annex I to this Regulation.

*Article 2*  
*Definitions*

For the purposes of this Regulation, the following definitions shall apply:

- (a) 'common entry document' means the document to be completed by the feed or food business operator or his/her representative as provided for in Article 5, a model of which is set out in Annex II, and by the competent authority confirming completion of official controls;
- (b) 'designated point of entry' means the point of entry provided for in the first indent of Article 17(1) of Regulation (EC) No 882/2004, into one of the territories referred to in Annex I thereto;
- (c) 'consignment' means a quantity of any of the feed or food of non-animal origin listed in Annex I to this Regulation of the same class or description, covered by

<sup>4</sup> [OJ L 199, 21.7.2006, p. 21](#)

the same document(s), conveyed by the same means of transport and coming from the same third country or part of such country.

*Article 3*

*Minimum requirements for designated points of entry*

Deleted:

Without prejudice to Article 14, the designated points of entry shall have at least the following available:

- (a) a sufficient number of suitably qualified and experienced staff to perform the prescribed checks on consignments;
- (b) office facilities for the competent authority to undertake the necessary checks;
- (c) detailed instructions regarding sampling for analysis and the sending of such samples for analysis to a laboratory designated pursuant to Article 12(1) of Regulation (EC) No 882/2004 ("the designated laboratory");
- (d) warehouses to store consignments in appropriate conditions during the period of detention awaiting the results of the analysis referred to in point (c), and a sufficient number of storage rooms, including cold stores, in cases where a controlled temperature is required due to the nature of the consignment;
- (e) unloading equipment and appropriate equipment for carrying out sampling for analysis;
- (f) the possibility to perform the unloading and the sampling for analysis in a sheltered place, where appropriate;
- (g) a designated laboratory which can perform the analysis referred to in point (c), situated at a place to which the samples can be transported within a short period of time.

The Commission shall display the national links to the lists of the designated points of entry on the Commission's website, for information purposes.

*Article 5*  
*Prior notification of consignments*

Deleted:

Feed and food business operators or their representatives shall give adequate prior notification of the estimated date and time of physical arrival of the consignment at the designated point of entry and of the nature of the consignment.

For that purpose, they shall complete Part I of the common entry document and transmit that document to the competent authority at the designated point of entry, preferably 24 hours prior to the physical arrival of the consignment.

*Article 6*  
*Language of common entry documents*

Deleted:

Common entry documents shall be drawn up in the official language, or in one of the official languages, of the Member State where the designated point of entry is located.

However, a Member State may consent to common entry documents being drawn up in another official language of the Community.

*Article 7*  
*Increased level of official controls at designated points of entry*

Deleted:

1. The competent authority at the designated point of entry shall carry out without undue delay:

- (a) documentary and identity checks on all consignments within 24 hours from arrival;
- (b) physical checks, including laboratory analysis, at the frequencies set out in Annex I, and in such a way that it is not possible for feed and food business operators or their representatives to predict whether any particular consignment will be subjected to such checks; results of physical checks should be available as soon as technically possible.
