Fire assembly point sign

Fire alarms

- The main dairy unit offices, MGRU, MET farm buildings have a fire alarm system that incorporates automatic fire detection.
- The Workshops have a red break glass call point system.
- A red break glass fire alarm call point is located at every staircase or external exit door.
- If you discover a fire and the fire alarm is not yet sounding, then raise the alarm by pressing the red break glass fire alarm call point.
- The sound will be a siren.
- Visual warning signals may also be provided such as a strobe light or a sounder beacon.

Fire alarm break glass call point

Green break glass emergency door release

Fire exits

- On hearing or seeing the fire alarm sounding make your way to the nearest available safe exit route and leave the building without delay.
- Swipe access doors on escape routes will automatically release on the activation of the fire alarm.
- A green break glass call point is located next to the swipe access door. Should the door not release press the middle of the green break glass call point and the door will release.

Fire assembly point

- Make your way to the designated fire assembly point. This will be identified in the building fire action notice.
- Do not re-enter the building.
- Wait at the assembly point until you are informed by the Evacuation Officer or University Security that it is safe to return to the building.

Centre for Dairy Research

Do not use lifts

Disabled refuge

Commend refuge communications intercom

Passenger lifts

- The main dairy unit offices has a disabled wheelchair platform lift.
- Lifts will remain out of use until the fire alarm is over.
- Do not attempt to use the lifts in the event of a fire emergency – always use the nearest available safe fire exit route via the stairs.

Disabled refuge

- The main dairy unit offices buildings allowing access to the upper floor (via platform lift) has fire refuges.
- The refuges are either end of the building and provide protection from fire and smoke for at least 30 minutes.
- If the fire alarm sounds you should move to a refuge.
- A member of the building fire evacuation team will return to you in the refuge until the need to evacuate or the all clear is given.
- While waiting in a refuge you may have a designated friend or carer stay with you in the refuge during the fire alarm activation.
- You will be assisted from the refuge on confirmation of a real fire. This is to avoid unnecessary stress upon you being evacuated due to a false alarm.
- Follow the instructions on the information poster in the refuge to summon assistance via the red Commend communications intercom.
- Press the button on the evacuation intercom in order to let Security know that you are in the refuge and may need assistance.
- This building has an Escape Mattress.
- The University has trained staff to operate the evacuation lift, escape chair, and escape mattress.
