MSc in Communication for Development (full-time)
For students entering in 2017/8

Awarding Institution: University of Reading
Teaching Institution: University of Reading
Relevant QAA subject Benchmarking group(s):
Programme length: 1 years
Date of specification: 16/10/2017
Programme Director: Dr Sarah Cardey
Board of Studies: Graduate Institute of International Development, Agriculture and Economics

Summary of programme aims
The aims of the programme in Communication for Development are that participants will:
• Develop a critical understanding of concepts, theories and frameworks for exploring interactions between communication, innovation and change in the context of international development
• Strengthen professional competence in the design, planning and management of information and knowledge interventions to support and promote innovation and change.

Transferable skills
The programme requires a substantial amount of independent reading, research and study and students are expected to take personal responsibility and show initiative in developing their knowledge and understanding of the field of study. In following this programme students will also have the opportunity to enhance and develop their skills relating to communication (oral and written), presentations, information handling, problem solving, teamwork and the use of information technology. Students will learn to work independently, under time pressures, and will learn to set priorities and manage their time in order to meet strict deadlines. Career planning, via choice of modules, will be an integral part of the programme.

Programme content
Postgraduate Certificate: The Postgraduate Certificate programme is a flexible programme comprising any 60 credits drawn from the MSc taught modules (excluding the dissertation) subject to agreement by the Programme Director.
Postgraduate Diploma: The Postgraduate Diploma programme is a flexible programme comprising any 120 credits drawn from the MSc taught modules (excluding the dissertation) subject to agreement by the Programme Director.
MSc in Communication for Development: Students take 70 credits of compulsory modules and select a further 50 credits from a wide range of modules, subject to satisfying any module pre-requisites, to total 120 credits from the taught component of the programme. The MSc then additionally involves a dissertation project worth 60 credits (IDM072).

Compulsory modules (130 credits):

<table>
<thead>
<tr>
<th>Code</th>

Support Module (non-credit bearing):
IDM089 Personal and Professional Development for International Students** 0

*The modules listed above as optional modules are a sample of the modules available. Students may select widely from the modules in the module guide, subject to timetabling constraints and subject to satisfying any module pre-requisites.
**The Personal and Professional Development module is for international students (although some events will be open to all masters students).

Part-time or modular arrangements
All students have the modular flexibility described in the ‘Programme content’; section above. Part-time students may build up their modular credits towards a Certificate, Diploma or MSc over an extended period.

Progression requirements
N/A

Summary of Teaching and Assessment
Teaching is organised in modules. The delivery of materials takes a variety of forms including lectures, classes, seminars and group exercises. Assessment is modular and involves coursework and for some modules unseen examinations. The nature of the assessment is determined by the aims of the module.
A dissertation supervisor is appointed for each student.

Degree Certification and Assessment
The University’s taught postgraduate marks classification is as follows:

Mark Interpretation
70 - 100% Distinction
60 - 69% Merit
50 - 59% Good standard (Pass)
Failing categories:
40 - 49% Work below threshold standard
0 - 39% Unsatisfactory Work

For Masters Degree
To qualify for Distinction, students must gain an overall average of 70 or more over 180 credits and a mark of 60 or more for the dissertation, and must not have any mark below 40.
To qualify for Merit, students must gain an overall average of 60 or more over 180 credits and a mark of 50 or more for the dissertation, and must not have any mark below 40.
To qualify for Passed, students must gain an overall average of 50 or more over 180 credits and a mark of 50 or more for the dissertation. In addition, the total credit value of all modules marked below 40 must not exceed 30 credits and of all modules marked below 50 must not exceed 55 credits.

For Postgraduate Diploma
To qualify for Distinction, students must gain an overall average of 70 or more over 120 credits and must not have any mark below 40.
To qualify for Merit, students must gain an overall average of 60 or more over 120 credits and must not have any mark below 40.
To qualify for Passed, students must gain an overall average of 50 or more over 120 credits. In addition, the total credit value of all modules marked below 40 must not exceed 30 credits and of all modules marked below 50 must not exceed 55 credits.

For Postgraduate Certificate
To qualify for a Postgraduate Certificate, students must gain an overall average of 50 or more over 60 credits. In addition, the total credit value of all modules marked below 40 must not exceed 10 credits.
Admission requirements
Entrants to this programme are normally required to have obtained an honours degree or its equivalent in a relevant subject but applicants with other qualifications as may be approved by the Senate, and who have at least 2 years professional experience in a relevant field of development work are also eligible to apply for admission to this programme. References are also taken into account.

Admissions Tutor: The Programme director is responsible for admissions.

Support for students and their learning
University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, In- sessional English Support Programme, the Study Advice and Mathematics Support teams and IT Services. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and the Support Centres. If a student has a general enquiry and is unsure where to seek help, they should visit their Support Centre. There are five Support Centres across the University, including one based at the London Road Campus. The Support Centre will be able to advise on matters such as extenuating circumstances, module selection, suspensions, withdrawals, timetable queries and transferring programme. The Support Centre will also be able to signpost students to Carrington building where other University services related to disability, financial support, counselling and wellbeing, accommodation and careers can be found. More information on what student services are available can be found here: http://student.reading.ac.uk/essentials.

A comprehensive ‘Programme Handbook’, which includes a detailed outline of the programme, its constituent modules and assessment guidelines, can be found on the Graduate Institute's Blackboard site. Day to day queries regarding academic matters (e.g. time- tabling) should be addressed in the first instance to the Support Centre (GU06) in the Agriculture Building or, where necessary, to the Programme Director.

A Research and Study Skills module (IDM071) is available to support learning throughout the taught component of the programme and to develop independent learning skills required for successful completion of the Dissertation.

Career prospects
The MSc in Communication for Development will prepare students for work in the communication and information departments of national and international development agencies, extension and advisory services in the public, commercial and not-for-profit sectors, and independent careers in development communication in fields such as health, HIV/AIDS, natural resource management and social development.

Opportunities for study abroad or for placements
With the agreement of their dissertation supervisor, students may be allowed to study abroad or take up placements during the Summer Term as part of their dissertation work.

Programme Outcomes

Knowledge and Understanding

<table>
<thead>
<tr>
<th>A. Knowledge and understanding of:</th>
<th>Teaching/learning methods and strategies</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Ways in which the links between international development, communication and innovation have been conceptualised and studied</td>
<td>Mixture of lectures, seminars, directed reading, group and individual project work, individual and group presentation, guided readings and guidance on key sources of reference material. Feedback and guidance are important elements complementing an emphasis on self-directed study.</td>
</tr>
<tr>
<td>2. Theoretical frameworks for analysing and understanding processes of communication and innovation at household and community level</td>
<td></td>
</tr>
<tr>
<td>3. The social, economic and political forces which shape people’s access to knowledge and information, and to communications technology and infrastructure</td>
<td></td>
</tr>
<tr>
<td>4. The historical and ideological forces that shape</td>
<td></td>
</tr>
</tbody>
</table>

Assessment
By coursework and, in some cases, formal examinations; coursework to include essay assignments and presentations.
the provision of extension and advisory services in developed and developing countries

Skills and other attributes

B. Intellectual skills - able to:

1. Structure, analyse and evaluate theoretical and conceptual issues and the bases for their relevance in the context of development at individual, local, national and international levels
2. Think logically and analytically and to understand the difference between positive and normative statements relating to ‘knowledge transfer’
3. Identify key approaches to supporting innovation in development contexts and evaluate them with reference to practice and outcome
4. Critically analyse communication and innovation theory and the practical application of communication media and processes in a development context
5. Comprehend the rapidly evolving discourse of development and the factors influencing both the change and the pace of change

Teaching/learning methods and strategies

Students are frequently challenged in all teaching situations to complete logical arguments, analyse problems, seek and evaluate alternative explanations, and justify held beliefs. Long essay, debate, group work and presentations provide the principal vehicles by which intellectual skills are developed.

Assessment

By formative tests and presentations. Other assignments, including coursework and, in some cases, formal examinations; dissertation.

C. Practical skills - able to:

1. Apply appropriate communication processes in the planning and implementation of development interventions
2. Evaluate the appropriateness and effectiveness of alternative development implementation strategies
3. Effectively apply a range of communication frameworks useful in the planning, implementation, monitoring and evaluation of development interventions and processes
4. Design and plan a communication intervention to support innovation in a development context
5. Identify, access, evaluate, synthesise, analyse, collate and represent data relevant to the critical evaluation of development policy and practice

Teaching/learning methods and strategies

Students are required to undertake and understand a wide range of reading, from traditional published sources, web-based material and other grey literature relating to development policy and practice. This includes both directed reading and through researching their own sources of information. Discussion in lectures and seminars emphasises the use of empirical evidence, and the strengths and weaknesses of alternative theories, methodologies and practices.
The practical skills are achieved through lectures, seminars, presentations, case studies, group work, and dissertation, and in particular, 4. is achieved through a project and assignment on unit IDM045.

Assessment

Long essays, presentations and unseen examinations

D. Transferable skills - able to:

1. Communicate knowledge and opinions effectively to a wide range of people
2. Work independently, responsibly and professionally
3. Reflect and evaluate his/her own academic progress and its implications for emerging/changing professional practice
4. Identify, access, evaluate, synthesise, analyse, collate and represent data relevant to the issue at hand

Teaching/learning methods and strategies

The presentation of well-researched written work is a fundamental element of the programme and requires the application of all the skills listed in 1-5. This is complemented and reinforced by enhanced oral skills, developed through lecture and seminar discussions, tutorials and group activities.

Assessment

By formative tests and presentations. Other assignments, including coursework and, in some
5. Manage time and prioritise workloads in the context of changing demands cases, formal examinations; dissertation.

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance process or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.
