

School of Biological Sciences

Research Seminars Autumn Term, 2017 Tuesdays, 1-2pm

Venue: Palmer 109

- 26th September Prof Pieter de Tombe- Magdi Yacoub Institute Harefield/Imperial College London
'Cardiac sarcomere dynamics in health and disease'
Hosted by Dr Sam Boateng
- 3rd October Dr Rob Salguero-Gomez – Department of Zoology, University of Oxford
'Where are the limits of life history strategies?'
Hosted by Dr Manuela Gonzalez-Suarez
- 10th October Dr Ildar Farkhatdinov- Queen Mary University, London
'Augmenting sense of motion and balance in human-robot interaction'
Hosted by Prof William Harwin
- 17th October Dr Jim Spencer- University of Bristol
'The role of zinc metalloenzymes in resistance to antibiotics of last resort'
Hosted by Dr Kim Watson
- 24th October Dr Samraat Pawar – Senior Lecturer, Department of Life Sciences,
Imperial College
'Metabolic constraints on complex ecosystems'
Hosted by Dr Richard Walters
- 31st October **NO SEMINAR THIS WEEK**
- 7th November Prof Corinne M. Spickett – School of Life & Health Sciences,
Aston University.
*'The challenges of measuring oxidized phospholipids and understanding their
biological effects'*
Hosted by Prof David Leake
- 14th November Dr Beth Purse – CEH Wallingford
'Understanding impacts of vector-borne pathogens in changing environments'
Hosted by Dr Amanda Callaghan
- 21st November Dr David Nikolic-Paterson- Head of Laboratory Research
Dept of Nephrology, Monash Medical Centre, Victoria, Australia
'ASK1 signalling in kidney inflammation and fibrosis'
Hosted by Prof Angela Clerk
- 28th November Dr Gregory Scott- Imperial College, London
"Cortical dynamics in health, traumatic brain injury and anaesthesia"
Hosted by Prof Slawomir Nasuto
- 5th December Dr Ulrike Bauer – School of Biological Sciences, University of Bristol
'Biomechanics and ecology of prey capture in carnivorous pitcher plants'
Hosted by Dr Alastair Culham
