Position: JavaScript Software Developer – KTP Associate

Based at: One Sightsolutions in Yateley, Hampshire

Salary: Circa £ 34,000 pa depending on qualifications and experience

Interview date: 20th July 2017

Vacancy ref: KT17004

Application closing date: 9th July 2017

Start date: Aug/Sept (flexible) 2017

Exciting opportunities have become available for two graduate candidates to capitalise on a significant market opportunity in the new Internet of Things (IoT) world of intelligent building systems by developing a novel dashboard system to support the analysis and data capture of building lifetime data. This will require the development of integrated frameworks to streamline the development of device drivers and their associated interfaces and relevant training material. Both positions are 2 year fixed term contracts, each with an additional £2k per annum dedicated training budget tailored towards personal development.

The successful candidate must possess …

- BSc or MSc degree in computer science or a related subject

Essential skills we require as a minimum:

- Front-end developing with proficiency in data visualisation for presentation of home automation and building systems
- Excellent knowledge of Javascript and data driven design approach
- Experience of using Javascript frameworks such as jQuery (Ajax) or Angular JS or Node JS or D3
- The ability to work well both within a team and also be able to work autonomously

About One Sightsolutions:

One Sightsolutions Ltd are the leading UK supplier of products and services that enable true innovation and integration within the building & energy management sector. They deliver effective connectivity solutions for 21st century buildings and the Internet of Things (IoT).
