

D EVAC L Databases

D EVAC L/1 Excel database of the Research Centre for Evacuee and War
Child Studies project - redacted
Consists of evacuees name, where the person was evacuated
from and to, and the school in the evacuated area. The
database does not seem to be a complete record of all those
people contacted. Information was extracted from an Access
database into an Excel document in 2013.

Please note: there is a version of this database with further
details which is currently CLOSED
The database will be attached to this record soon.

D EVAC L/2 Excel database of the SEAVAC project - redacted
Consists of evacuees name, where the person was evacuated
from and to, and the school in the evacuated area.
Information was extracted from an Access database into an
Excel document in 2013.

Please note: there is a version of this database with further
details which is currently CLOSED
The database will be attached to this record soon.
