Due to the individual nature of studio practice, the cost of materials throughout your programme will vary depending on your choice of media. At Part 1 most materials are provided by the department except where students wish to use specialist or unusual materials of their choice. In subsequent years we would suggest an approximate budget of £200 per year to cover basics. For the final year exhibition you may wish to invest more in materials. This is not a necessary requirement and advice should be sought from the module convenor. However a reasonable budgetary expectation would be an additional £200. In addition, students should budget approximately £60 per year for exhibition and museum trips. Costs are indicative and may vary according to optional modules chosen and are subject to inflation and other price fluctuations. The estimates were calculated in 2021.

Printing and photocopying facilities are available on campus at a cost of £0.05 per page. Costs will be, on average, £10 per year. The Department of Art houses its own art supplies shop that provides a range of materials at subsidised prices. Equipment and software for video and digital media practices are all available to hire at no cost through our student media resource. Due to the individual nature of studio practice, the cost of materials throughout your programme will vary depending on your choice of media. At Part 1 most materials are provided by the department except where students wish to use specialist or unusual materials of their choice. In subsequent years we would suggest an approximate budget of £200 per year to cover basics. For the final year exhibition you may wish to invest more in materials. This is not a necessary requirement and advice should be sought from the module convenor. However a reasonable budgetary expectation would be an additional £200. In addition, students should budget approximately £60 per year for exhibition and museum trips. In Film, you will incur costs for theatre, cinema and/or gallery trips linked to Department modules and module assessments. These visits are an essential and very enjoyable part of your studies. We recommend that you budget between £60 to £100 for this per year. We secure discounted tickets in good seats through group booking, and travel costs can be significantly reduced by booking well in advance, travelling off peak, and using Group Travel discounts and a 16-25 rail card. To help reduce costs, we also include visits to venues in Reading and Oxford as well as London where appropriate, and we invite practitioners to the department to perform/exhibit work and hold workshops and master classes for our students. You are not required to purchase any practical equipment, as the Department provides the necessary equipment and facilities. If you require specialist materials for practical work, a technician will source this for you, following consultation with the relevant academic member of staff. If you partake in Study Abroad you should expect to pay for services which you would normally expect to pay for at Reading e.g. housing, food, travel, social activities, etc. Additional costs will vary depending on the host institution and location. Please see the Erasmus and Study Abroad website for further details. Costs are indicative and may vary according to optional modules chosen and are subject to inflation and other price fluctuations. The estimates were calculated in 2021.
