The government has set out its roadmap for the easing of COVID-19 restrictions for the coming months. While the restrictions easing is something to look forward to, the specific dates and what will be allowed is indicative.

The steps are subject to a number of conditions, including keeping a distance from others outside our household for the time being, continued monitoring of COVID-19 cases and the uptake of vaccinations.

We all need to continue to play our part to adhere to all current rules and make sure we can safely move through the steps.

Remember – throughout all the steps you can socialise indoors or outdoors with members of your household or support bubble.
