

ESSENTIAL INFORMATION

University of
Reading

Postgraduate Students with SpLDS

If you are doing a one-year Master's with exams

- you will be eligible for reasonable adjustments, but you need to re-register for your new course so that we can set this up for you
- you may also be eligible to apply for postgraduate DSA; you will need to complete the full DSA1 form, and send your diagnostic report and your previous needs assessment report, if you have one, to Student Finance England

The rules state that if a report has previously been used to support a DSA application it can be again.

If you are doing a PhD

- you are unlikely to have exams, but we can make suggestions to your supervisors for reasonable adjustments to be made
- 'green stickers' for disregarding of spelling and grammar cannot apply to your final thesis submission
- it is a good idea to discuss your particular situation with a disability advisor
