- % This has building a passenger lift. When the fire alarm sounds the lift should automatically go to the ground floor where the lift doors will open.
- % Lifts will then remain out of use until the fire alarm is over.
- % Do not attempt to use the lifts in the event of a fire emergency – always use the nearest available safe fire exit route via the stairs.

- % Follow the instructions on the information poster in the refuge to summon assistance via the silver Windcrest communications intercom.
- % The lift will need to be operated by a member of the building evacuation team.
