### Programme information and content

This programme aims to provide you with a degree-level education in accounting and finance. The study of accounting and finance progresses through the programme so that students obtain a critical grasp of core theory along with thorough knowledge, and skills of application and analysis related to these disciplines. This study embeds international and ethical considerations widely, with optional modules grounding the study of accounting and finance in a broader understanding of the business environment. The programme offers the opportunity to apply for credit for prior learning for a range of professional accounting papers. As a result the programme will prepare students for professional leadership in their chosen employment sector.

Part 1:	Introduces students to the core fundamentals of financial and management accounting, finance and financial markets, supplementing this with broader business-related modules.
Part 2:	Builds on the core knowledge gained at Part 1, with compulsory modules to develop deeper knowledge and application of that knowledge in the core strands of financial accounting, management accounting and finance.
Placement/Study abroad year:	One year optional work placement aims at developing professional practice skills that form the basis for students' future careers, providing hands-on experience in professional practice, or a related career in accountancy or finance, developing transferable skills and overall improving graduate prospects.

Part 3:	Compulsory modules enable students to deepen their theoretical and practical knowledge, application, and critical evaluation of the core strands, and optional modules provide flexibility for students to explore areas of particular interest. Students will also continue to enhance transferable skills.

### **Optional modules:**

The optional modules available can vary from year to year. An indicative list of the range of optional modules for your Programme is set out in the Further Programme Information. Details of optional modules for each part, including any Additional Costs associated with the optional modules, will be made available to you prior to the beginning of the Part in which they are to be taken and you will be given an opportunity to express interest in the optional modules that you would like to take. Entry to optional modules will be at the discretion of the University and subject to availability and may be subject to pre-requisites, such as completion of another module. Although the University tries to ensure you are able to take the optional modules in which you have expressed interest this cannot be guaranteed.

## **Additional costs of the programme**

Costs are indicative, but will vary according to module choice and are subject to inflation and other price fluctuations. The estimates were calculated in 2016.

During your programme of study you will incur some additional costs.

For textbooks and similar learning resources, we recommend that you budget between £125.00 to £185.00 a year. Some books may be available second-hand, which will reduce costs. A range of resources to support your curriculum, including textbooks and electronic resources, are available through the library. Reading lists and module specific costs are listed on the individual module descriptions.

Subject to your module selection, you may be required to purchase sundry materials (i.e. printing). Many students find it advantageous to have their own personal computing facilities though there are central facilities available.

## **Placement opportunities**

### **Placements:**

You may be provided with the opportunity to undertake a credit-bearing placement as part of your Programme. This will form all or part of an optional module. You will be required to find and secure a placement opportunity, with the support of the University.

**Study Abroad:**

You may be provided with the opportunity to undertake a Study Abroad placement during your Programme. This is subject to you meeting academic conditions detailed in the Programme Handbook, including obtaining the relevant permissions from your School, and the availability of a suitable Study Abroad placement. If you undertake a Study Abroad placement, further arrangements will be discussed and agreed with you.

**Teaching and learning delivery:**

You will be taught through a combination of lectures, seminars and practical workshops.

Scheduled classes constitute approximately 240 hours for each part and will depend upon your module combination; however information about module contact hours can be located in the relevant module description.

**Accreditation details****Assessment**

The programme will mainly be assessed through a combination of written examinations and coursework, although other methods may be used. Information about module assessment can be located in the relevant module descriptions.

**University-wide progression requirements:****Part 1**

- (i) Obtain an overall average of 40% over 120 credits taken in Part 1; and
- (ii) Obtain a mark of at least 30% in individual modules amounting to at least 100 credits taken in Part 1.

In order to progress from Part 1 to Part 2, a student must achieve a threshold performance. The achievement of a threshold performance at Part 1 qualifies a student for a Certificate of Higher Education if he or she leaves the University before completing the subsequent Part.
