

Programme Specification

BA Primary Education (3 yr)

For students entering Part 1 in September 2023

UCAS Code: X1S2

UFEDGEN3

This document sets out key information about your Programme and forms part of your Terms and Conditions with the University of Reading.

Awarding Institution	University of Reading
Teaching Institution	University of Reading
Length of Programme	3 years
Accreditation	Department of Education (DFE)

Programme information and content

High quality education is essential if individuals are to realise their full potential and the teacher is fundamental in that process. This Primary Initial Teacher Training and Education (ITTE) programme is based on the view that effective and meaningful education comes about because of active, dialectical learning that enables the development of analytical and creative skills. The programme aims to develop the individual student's identity as a beginner teacher by broadening and deepening their knowledge and skills in a range of disciplines. The 120 credit programme will also enable students to undertake a range of core modules where they can build their understanding and expertise within specialism modules in Art, English, Mathematics and Music in Part 1. Students continue to undertake a range of core specialism modules in Art and Music or English and Mathematics in Part 2 and 3. By working in partnership with successful schools on programme design, delivery and evaluation, the programme will further aim to enable students to achieve their full potential as teachers at Key Stage 1 and 2 with a well-developed generalist pathway who are fully equipped with the knowledge, skills and understanding to achieve high standards as newly qualified members of the teaching profession. As is appropriate to a professional programme such as this, there is an emphasis on the development of professional values and attributes, as defined by the Teachers' Standards, the Department for Education's (DfE) standards for Qualified Teacher Status (QTS).

The content of the programme follows three distinct yet closely related strands of work. These are: A Generalist pathway (optional modules), Professional Studies, and Curriculum Studies. The programme comprises 17 modules, 6 each in years 1 and 2, with 5 in year 3, together with 3, non-credit bearing, school experience placement modules.

The Generalist pathway will enable students to pursue a range of disciplines within their educational interests through a number of modules to Honours level (Level 6). This strand will explore and enable reflection for the interface between the chosen subjects, children and teaching and learning in the primary school.

The Professional Studies strand will ensure that students have the study skills they need to take control over their own learning. It will introduce students to major theories regarding teaching and learning, child development and behaviour, curriculum design and the roles and responsibilities of the teacher. There will be particular focus in the final year on

children's individual needs, which will include working with children with special educational needs.

Curriculum Studies modules will explore in depth the content of the core subjects of the primary curriculum. The core subjects are regarded as English, Mathematics and Science. Computer Science is seen as an integral aspect of each of these in terms of its capacity for and application to store and retrieve information, communicate, calculate and compute. Physical Education is also acknowledged as being central to the primary curriculum, and students will study all the subject areas to explore what is taught, how it is taught and importantly, why it is taught. Through critical investigation, students will be encouraged to be creative, independent thinkers who are able to propose, and defend, appropriate pedagogies for the meaningful delivery of diverse curriculum demands.

In addition to the taught modules, trainees will be required to undertake supervised school placements in line with government requirements. Serial visits will provide opportunities for trainees to research into and experience first-hand elements of the taught modules described above and may contribute towards the assessment schedule of those modules. Students will also have some week-long placements which may be focused around priority areas or key elements of teaching practice.

To appropriately address the Teachers' Standards by the end of the programme and develop effective professional attributes, full attendance and active participation in all modules is a requirement.

Part 1:	Introduces you to the ideas of developing a deep insight into the nature and purpose of teaching and learning in the primary school. Introduces you to the ideas of developing a deep insight in the teaching and learning within your optional modules within the primary classroom and wider issues linked to education. In your professional terms, you will start to understand the nature of teaching in primary schools and start to unpick the requirements of the primary curriculum. You will have a weekly serial placement in Key Stage 1, as a precursor to your block placement in a Key Stage 1 classroom. Your work will be assessed through course work, presentations, and practical activities.
Part 2:	You will develop greater depth of understanding how children develop their learning. through your chosen optional module. In the professional terms, you will unpack the teaching and learning of all areas of the primary curriculum and the progression of ideas. You will especially develop an insight into the teaching and learning strategies within Key Stage 2. Your placement will be in a Key Stage 2 classroom. Your work will be assessed through course work, presentations and practical workshops.
Part 3:	Gives you the opportunity understand and develop clear strategies and skills become a Subject Leader, in the future. Gives you the opportunity understand and develop clear strategies and skills to go into leadership roles within a chosen subject through the optional modules. Additionally, you will be provided opportunity and time to develop your final year dissertation in an area of research you are interested in. Your professional terms will focus on issues of inclusion within primary education and the tools that you will need to be successful

educators of the future. You will also undertake a final year research project on an education issue that you are interested in.

Module information

Each part comprises 120 credits, allocated across a range of compulsory and optional modules as shown below. Compulsory modules are listed.

Part 1 Modules:

Module	Name	Credits	Level
ED1EC1	English and Communication in the Primary Curriculum 1	20	4
ED1EFI	The Primary Classroom: Education for Inclusion	20	4
ED1MP1	Mathematics in the Primary School	20	4
ED1PS1	Professional Studies 1	20	4
ED1SP1	Teaching Practical Sessions in Science and Physical Education	20	4
ED1SX1	School Experience 1	0	4

The remaining credits will be taken from the list of optional modules from the Institute of Education or from an approved list of modules from across the University.

Part 2 Modules:

Module	Name	Credits	Level
ED2EC1	English and Communication in The Primary Curriculum 2	20	5
ED2GCP	Global Citizenship in the Primary Classroom	20	5
ED2MS1	Enabling Progress in Mathematics and Science	20	5
ED2PF1	The Foundation Subjects in the Primary Curriculum	20	5
ED2PS1	Professional Studies 2	20	5
ED2SX1	School Experience 2	0	5

The remaining credits will be taken from the list of optional modules from the Institute of Education or from an approved list of modules from across the University.

If you take a year-long placement or study abroad, Part 3 as described below may be subject to variation.

Part 3 Modules:

Module	Name	Credits	Level
ED3EM1	Refining Pedagogy in English and Mathematics	20	6
ED3PF1	The Foundation Subjects in the Primary Curriculum	20	6
ED3PI1	Professional Studies and Inclusion	40	6
ED3SP1	Formative Assessment In Science And Physical Education	20	6
ED3SX1	School Experience 3	0	6

The remaining credits will be taken from the list of optional modules from the Institute of Education or from an approved list of modules from across the University.

Optional modules:

The optional modules available can vary from year to year. An indicative list of the range of optional modules for your Programme is set out in the Further Programme Information. Details of optional modules for each part, including any Additional Costs associated with the optional modules, will be made available to you prior to the beginning of the Part in which they are to be taken and you will be given an opportunity to express interest in the optional modules that you would like to take. Entry to optional modules will be at the discretion of the University and subject to availability and may be subject to pre-requisites, such as completion of another module. Although the University tries to ensure you are able to take the optional modules in which you have expressed interest this cannot be guaranteed.

Additional costs of the programme

Costs are indicative and may vary according to optional modules chosen and are subject to inflation and other price fluctuations.

The estimates were calculated in 2022.

Placement opportunities

Placements:

You will be provided with the opportunity to undertake a pass/fail placement as part of your Programme. This will form part of your compulsory requirements for progression through the course. Your placement will be organised by the University with one of our partnership schools. You will have a mentor as well as the support of a University tutor throughout your placements.

Study Abroad:

You will not have an opportunity to Study Abroad.

Teaching and learning delivery:

Teaching is organised in modules that typically involve lectures, seminars, tutorials and blended learning. Some modules provide opportunities for students to work with children both in and out of the school context.

Total study hours for each Part of your programme will be 1200 hours. The contact hours for your programme will depend upon your module combination; an average for a typical set of modules on this programme is Part 1 - 444 hours, Part 2 - 504 hours, Part 3 - 264 hours. In addition to your scheduled contact hours, you will be expected to undertake

guided independent study. Information about module contact hours and the amount of independent study which a student is normally expected to undertake for a module is indicated in the relevant module description.

Accreditation details

DBS Clearance

Fitness to Teach Assessment

The Department for Education will formally award Qualified Teacher Status

Assessment

There is an emphasis on student participation and reflective practice at all stages of the programme.

The programme will be assessed through a combination of written coursework, oral presentations, and critical evaluations of work undertaken on placement and extended research projects and dissertations.

Modules are assessed by a blend of coursework assignments and other tasks such as presentations.

The programme will be assessed through a combination of written coursework, oral presentations, extended research projects and dissertations. Work undertaken in block placements will be critically evaluated and in Part 3 evaluated for recommendation to QTS.

Progression

The University-wide rules relating to 'threshold performance' as follows

Part 1

- (i) obtain an overall average of 40% over 120 credits taken in Part 1; and
- (ii) obtain a mark of at least 30% in individual modules amounting to at least 100 credits taken in Part 1.

In order to progress from Part 1 to Part 2, a student must achieve a threshold performance; and

- (iii) pass ED1SX1.

The achievement of a threshold performance at Part 1 qualifies a student for a Certificate of Higher Education if they leave the University before completing the subsequent Part.

Part 2

To gain a threshold performance at Part 2, a student shall normally be required to:

- (i) obtain a weighted average of 40% over 120 credits taken at Part 2; and
- (ii) obtain marks of at least 40% in individual modules amounting to at least 80 credits; and
- (iii) obtain marks of at least 30% in individual modules amounting to at least 120 credits, except that a mark below 30% may be condoned in no more than 20 credits of modules owned by the Department of Mathematics and Statistics.

In order to progress from Part 2 to Part 3, a student must achieve a threshold performance and

- (iv) pass ED2SX1.

The achievement of a threshold performance at Part 2 qualifies a student for a Diploma of Higher Education if they leave the University before completing the subsequent Part.

Classification

Bachelors' degrees

The University's honours classification scheme is based on the following:

Mark	Interpretation
70% - 100%	First class
60% - 69%	Upper Second class
50% - 59%	Lower Second class
40% - 49%	Third class
35% - 39%	Below Honours Standard
0% - 34%	Fail

The weighting of the Parts/Years in the calculation of the degree classification is:

Three year programmes:

Part 2: one-third

Part 3: two-thirds

Students successfully completing the programme will be awarded BA in Primary Education. In addition to the degree classification, students who have successfully met the Teachers' Standards and passed ED3SX1 will be recommended for Qualified Teacher Status (QTS). The assessment is based their final school experience. The Department for Education will formally award Qualified Teacher Status

For further information about your Programme please refer to the Programme Handbook and the relevant module descriptions, which are available at <http://www.reading.ac.uk/module/>. The Programme Handbook and the relevant module descriptions do not form part of your Terms and Conditions with the University of Reading.
