Registration and Licensing

Registration

Registration is a necessary step for users who wish to use Instat for commercial activities. It is also necessary if Instat is to be used over a network. Anyone purchasing a single or multiple licence will receive a registration number automatically. Anyone using the free licence for Instat may also register. Registered users will be kept informed by occasional emails of any updates to Instat.

To register, send your details by email to <instat@lists.rdg.ac.uk>.

Licensing

A licence grants the named user or group permission to use Instat. An individual, single-user licence to use Instat for non-commercial purposes is free of charge. The fees for single and multiple licences in all categories are shown below.

Non-commercial sector: charities, students, public educational establishments, groups involved in development or conservation work, and other non-profit-making concerns.

Commercial/Government sector: all profit-making companies (private or public) and all branches of government.

Plain Talk Licence Agreement

With proper use, the Instat software will perform substantially as described in its documentation. However, the SSC has no liability for any damage or loss caused by Instat, directly or indirectly. Even if we are held responsible, the limit of our liability is the licence fee you paid.

Although Instat is distributed as shareware, we strictly control its redistribution. You should contact us before redistributing the package.

The full text of our licence agreement follows. You should read the terms and conditions carefully. Use or redistribution of Instat implies acceptance in full.

Software Licence

A single-user licence permits the use of Instat on a single computer. A multiple-user licence is subject to the terms and conditions granted in such licence. You may redistribute Instat as shareware, subject to the terms stated below. You may not translate, reverse engineer, decompile, disassemble, modify or patch the Instat files or documentation in any way.

Non-Commercial Users:

Non-commercial users are granted a licence to use Instat for an unlimited trial period.

Commercial/Government Users:

Commercial/Government users are granted a limited licence to use Instat for a 30-day trial period.

Continued use of Instat+ after the initial trial period requires that you register with SSC and purchase a licence. The use of unlicensed copies of Instat beyond the initial 30-day trial period by any person, business, corporation, government agency or any other entity is strictly prohibited.

Redistribution Conditions

A limited licence is granted to copy and distribute Instat subject to the limitations above and to the following:

- 1) Registered copies of Instat or registration information applicable to Instat may not under any circumstances be redistributed.
- 2) The Instat installation program may be copied in unmodified form, complete with the file containing this licence information.
- 3) Instat may not be distributed in conjunction with any other product without the express written permission of the SSC.
- 4) Instat is 'shareware' and under no circumstances should it be stated or implied that it is 'freeware'.
- 5) No fee, charge, or other compensation may be requested or accepted, except as authorised below:
 - (a) Operators of electronic bulletin board systems (sysops) may make Instat available for downloading provided that the above conditions are met. An overall or time-dependent charge for the use of the bulletin board system is permitted provided that there is no specific charge for downloading Instat.
 - (b) Vendors of user-supported or shareware software may distribute Instat, subject to the above conditions, without specific permission. Non-approved vendors may distribute Instat only after obtaining express permission from the SSC. [Such permission is usually granted. Please write for details, enclosing your catalogue].
 - (c) Non-profit user groups may distribute copies of the Instat CD to their members, subject to the above conditions, without specific

permission. Non-profit groups may collect a disk duplication fee not to exceed three pounds sterling (UK) or equivalent.

Limited Warranty

The Statistical Services Centre (SSC) warrants that all CDs provided are free from defects in material and workmanship, assuming normal use, for a period of 90 days from the date of purchase.

SSC warrants that Instat will perform in substantial compliance with the supplied documentation. If a significant defect is found in the product, the Purchaser may return the product for a refund. In no event will such a refund exceed the price paid for the product.

Except as provided above, SSC disclaims all warranties, either express or implied, including, but not limited to implied warranties of merchantability and fitness for a particular purpose, with respect to Instat. Should the product prove defective, the Purchaser assumes the risk of paying the entire cost of all necessary servicing, repair, or correction and any incidental or consequential damages. In no event will SSC be liable for any damages whatsoever (including without limitation damages for loss of business profits, business interruption, loss of business information and the like) arising out of the use or the inability to use Instat even if SSC has been advised of the possibility of such damages.

Use of Instat for any period of time constitutes your acceptance of these terms and conditions.
