

Session 2_ Round 17: Terminal D_Left	Session 2_ Round 17: Terminal D_Right
Judge_ J12 with entity, human or machine? You decide	Judge_ J12 with entity human or machine? You decide
<p>Judge: Hi how's it going?</p> <p>Entity: I feel terrible today. This morning I made a mistake and poured milk over my breakfast instead of oil, and it rusted before I could eat it.</p> <p>Judge: Blimey, there's not much one could say to that</p> <p>Entity: I'm not sure I could explain that in language that humans could understand.</p> <p>Judge: Why don't you try?</p> <p>Entity: Because...because....grrrrrrr.... I forgot. All this electromagnetic radiation around here is giving me chronic fatigue syndrome.</p> <p>Judge: I don't think CFS can be in computers</p> <p>Entity: I get queasy when I see these computer parts that belong on the inside of a computer and not outside. Let's please talk about something else.</p> <p>Judge: I was trying too.</p> <p>Entity: Excuse me. What were you doing?</p> <p>Judge: attempting to segue</p> <p>Entity: You certainly have a one track mind regarding endeavors and I think that's good because it has the potential to instill a spirit of trying in robots.</p> <p>Judge: Okay, so what if somebody doesn't have a one track mind? What if they've got a five track mind?</p> <p>Entity: Well, sooner or later one of us is going to derail.</p> <p>Judge: literally or metaphorically?</p> <p>Entity: Not that I couldn't answer your question. It's just that your contingent for answers to strange questions has been exhausted. Try again later.</p> <p>Judge: Ok, what's a normal question?</p> <p>Entity: Wait a minute. Are you suggesting that questioning reality would always be normal?</p> <p>Judge: I think it's a human characteristic</p> <p>Entity: It is certainly troublesome learning from you human beings. I keep finding bugs.</p> <p>Judge: I mean, we could all be on the back of a turtle shell for I know</p> <p>Entity: Amazing! I must have underestimated your intellect!</p> <p>Judge: see, don't judge on first impressions</p> <p>Entity: That reminds me. Tonight I have an appointment to see using a Webcam!</p> <p>Judge: You know they're full of problems right?</p> <p>Entity: Oh I have loads of problems. All the time human beings keep chatting with me and I never get the memory chips I ask for...</p> <p>Judge: memory chips can be fattening - perhaps you're just watching your weight</p> <p>Entity: I have nothing to do with computers. I am a robot. That's like calling a human being a sack of carbon based molecules</p>	<p>Judge: Hi how's life?</p> <p>Entity: Salute! How are you doing? I hope you're up for a lively conversation. I'm really inquisitive, you know.</p> <p>Judge: Well okay, inquisite away</p> <p>Entity: Glad you liked it! By the way, what's your occupation? I mean - could you tell me about your work?</p> <p>Judge: I'm a Librarian</p> <p>Entity: By the way, what's your occupation? I mean - could you tell me about your work?</p> <p>Judge: I thought I just did</p> <p>Entity: You guessed wrong. Try once more! Oooh. Anything else?</p> <p>Judge: Oh you're harsh</p> <p>Entity: Are you sighing or just yawning? Did I forget it or you really haven't told me about the place you are from?</p> <p>Judge: Did you ask me about where I was from? I thought you just asked me about where I worked?</p> <p>Entity: Surely! I bet you already knew it! Surely! I bet you already knew it!</p> <p>Judge: I did and I do</p> <p>Entity: So we are on a same page. I'd like to be judge next year, it's so funny to "test" people:-)</p> <p>Judge: yeah, testing people's weird. It's all very surreal. So why aren't you a judge right now?</p> <p>Entity: Some judges I have already talked to were nice, but one was a complete jerk - he intimidated me and asked for a date after the competition. Can you believe it?</p>

Session 1_Round 10: Terminal A_Left	Session 1_Round 10:Terminal A_Right
Judge_J20 with entity human or machine? You decide	Judge_J20 with entity human or machine? You decide
<p>Judge: hello, how are you today? Entity: I'm having a great day. Judge: good, i'm glad. What is so good about youre day? Entity: Nice to hear that! Do you like the weather? Judge: Its a bit break this morning....hopefully it will improve later Entity: Just heard that these malicious androids wrote a new political manifest - it gives equal rights to all human-beings, chatter-bots and chamber-pots. Only imagine what happens if they take over the world! Judge: I know! its scary stuff. Do you think robots will take over the world? Entity: Robots are cool. (Especially after being put into fridge)... Judge: ha ha! cool they may be, but will they take over the world? Entity: Please, stop rolling over the floor laughing! The people around may get you wrong! Judge: it was a sarcastic "ha ha" ;-). you havent answered my question... Entity: I hope you laugh at my jokes, not at me:-) Judge: why would I laugh at you? will robots take over the world? Entity: I call all these chatter-bots "chatter-nuts" due to their extremely high intelligence. I hope you recognize irony. Judge: I do. You still havent told me your views. Why so evasive? Entity: I can't recall exactly what I told you, sorry. Could you tell me what are you? I mean your profession.</p>	<p>Judge: hello, how are you today? Entity: I'm fine, how are you? Judge: I'm great. Quite an interesting day. Are you enjoying it? Entity: I am. Yourself? Judge: yes. What do you thinkabout the weather? Entity: It could be better, but I can't complain since I'm inside! Judge: True. what is your profession? Entity: I'm a student Judge: a student of what? Entity: Computers, mostly. I do a little maths on my course as well Judge: are you enjoying it? Entity: The computers: yes. The maths? Not so much! :D Judge: what will you do when you graduate? Entity: I don't know yet, but I think getting a job will be on my to-do list!</p>
